

Port Bonython Fuels

PORT BONYTHON FUEL TERMINAL PROJECT

Project Information Update #4 - Construction update, 6 Aug 2015

Whyalla's latest major development

The Project has been taking obvious shape in the last 3 months with the main storage tanks nearing full height.

We are very pleased that we have been able to support the regions businesses, by awarding contracts to ICE Engineering, Link Engineering, McMahon Services and Lucas TCS amongst others.

The shareholders of Port Bonython Fuels are encouraged by the support from local businesses and the support being shown by the local community.

The construction works continue as scheduled for completion in early – mid 2016. After commissioning we look forward to supporting the region with the supply of diesel.

If you have any queries, please feel free to contact us direct.
