An invitation to find out more about the Port Bonython Fuel Terminal Project

Dear Point Lowly Resident,

Last month the go-ahead was given to the Port Bonython Fuel Terminal Project after extensive planning including a rigorous South Australian Government assessment.

Site works will begin later this year with full construction underway by early 2015 and completion in mid 2016.

The terminal will be built by Petro Diamond Australia, a subsidiary of Mitsubishi Corporation.

The management of Petro Diamond invite you to find out more about the project at an information session at Point Lowly this coming Tuesday, 2 September, 2014.

Company managers will be at the terminal site (please see attached map) between 11.30 and 12.30 to provide information and discuss any questions you may have.

The information session is part of Petro Diamond's objective to keep the local community informed during the life of the project.

We look forward to seeing you next Tuesday.

Yours sincerely

Rick Conti

Chief Operating Officer
