Port Bonython Fuel Terminal Project Project Information Update #3 Construction update, 30 Apr 2015 Whyalla's latest major development

The Project has seen a successful completion of the early civil works in March. Construction of the foundations for the main storage tanks has commenced and the tank construction has commenced.

The site has been fenced and secured from mid- February 2015 and now has a security guard at the site entrance to manage access. The site administration office building, which is being constructed by a local contractor

D&R Covino, is also nearing completion.

The construction works are expected to ramp up in the coming months with all other trades expected to commence by July 2015, including pipeline works to Port Bonython Jetty.
